Independence Day.

Meating in the Interest of Home Bule-Anarchy n a Kentucky County-Two Persons Burned to Death-Etc.

New York, July 5—Tammany society celebrated Independence Day to-day as a body. The multitude began to assemble before 10 o'clock, and when the members marched in full regains at 11 lb, Tammany hall was packed with people, who sat through the programme of 'long' and 'short' talks, Isting four hours. Among the prominent personages present ware senutor Annes, Samuel J handal, fren E L. Viele and tongressman Bowdrs; Grand Sachem Henry P Dugro presided, and the Declaration of Independence was read, after which speaking began. The general senutional government, and over the resturn of the democratic pail to power in he national government, and over the restoration, more or less complete, of democratic principles as particularly appropriate of an American in legendence celebration. Each speaker dwell upon one phase or another of the home rule contest abroad."

The inst speaker was Senator Vance of North Carolina. He was put down on the program me for one of the "long" tails tongratulating the sourchy upon the return of the democratic party to power in the national government, he said that they had elected a president with purposes so high, honest and pure, that already the extense of the government had been cut down, and in ge had been driven out. In the course of a discussion upon the fundamental principles of the democratic party, he said. "In the hour of victory we have some little demonstration, and we have permitted a fenden y loward a bureau cratic administration to appear in what is called civil service reform. The action of the system is unconstitutional and undemocratic. The action of the civil service bond a to secure privileges to a few, and consequently it calls upon all to pay out money for its support. The constitution provides that the people shall be taxed only for the general welfare, and it is undemocratic to have the board examine applicants for particular to have the board examine applicants find the proposed by the party has the provided the endied of the successful the party has been a history of those who had the belong? To they belong to those who had they belong to the victors to whe made to run the government upon principles of posed by human nature. But although the democratic party has been a hacklider in this regard, it will returned the steps and recover from take to run the government upon principles of posed by human nature. But although the party has not backshiden, because it has been purified hur up a suffering, but there is the Monthish woman of expediency. A long and at times acrimonous discussion arose over an amendment offered by (amon of Himots, appropriating \$22,000 to refund taxes diseasely collected from some railrond companies on account of altern bond and stoccholders. The amendment was adopted.

The clause railfying and confirming readjustments of calaries of postmaster general, pursuand to the set of the dof March, 1834, was ruled out on a point of order, and an amendment offered by Ar Hurus of Missouri, striking out the entire appropriation for readjustments, \$302,344, was adopted.

This is a bill of review, brought to review a
decree given ty this court on September 4,
1854 in a suit, wherein the defendant inrein,

sundry others were the defendants

is a in a suit, wherein the defendant burent was the plaintiff and the plaintiff sherein an sundry others were the defendants. The crigital suit was brought to restrain the plaintiffs herein, sold king, as sheriff of Langeounty, and it is completely as sheriff of Langeounty, and others, from collecting certain twos therefore levied by said counties and others respectibely, on certain mortgages of real property, held and owned by the plaintiff therein as security for money loaned to the parties executing the same under the act of the egislative assembly approved Cotober to 1883 and commonly called "the mortgage tax lay "on the ground that the same was void and of no effect to reasons therein stated. On a cemourrer to the bill the court held that the act was unconstitutional and and over ruled the demurrer and on the failure of the defendants to answer the bill within the time allowed therefor the court gave a final decree perpetually enjoming the plaintiffs herein and thour co-defendants form collecting or attempting to cliect and taxes amounting in the case of lenten county to \$84.50.

The hell alleges that the decree is manifestly erroneous in this. The court erred in overruling the elaminers to the bil and in emporing them to pay the plaintiffs costs at disbursements. The mortgage tax law provided that mortgages on land in memorial the outpropes on land in moments. The mortgage call and taxed as land. The court find the not unconstitutional for want of uniformity, and because the same is special or as state in the spliabus of he case (10 Saw, 52).—'An act which provides for the taxation of uniformity, and because the nort than one county its exist in the spliabus of he case (10 Saw, 52).—'An act which provides for the taxation of the constitution of the state in the other, and other than one county its exist and of the constitution of the other constitution of the state in the other as such as a count of the state in the other as such as count of the state in the other as such as count of the state in the oth

### WHAT AILLED GPEELES

Horace Greeley's grave at Greenwood cametery was visited on Deceration day by a grand army post and by the typographical union. Amos Cummings, president of the Press clob of New York city, delivered an oration. The pop ular belief that political disappointment broke down Greeley's great brain is in our judgment mistaked. Watching for weeks every min by the heddled of his slowly dying wite, I sing his sleep, and crowding the work of a century into th rtyyears, upset Greeley in body and mind, for he was a man of extraordinary domestic ten derness. It is easy to conceive of a simple-hearted, affectionate unture like treeders a treating under bereaven of an i hard work, while it is not easy to conceive of a freali, vigor ous, heathy soul las his breaking under more nerwone; desertion ment horace (-reeley, who had all his life been w ging losing lights, and yet had always bounded up from the earth with strength renewed. Ly the contact, and as form! dable as ever for the next conflict, was not the sort of man to fret or have hunself to death because he missed the presidency. But his heart, when touched by lone-sic sorrow, always bled freely. The death of his beautiful, golden halred boy, years hell re, had well nigh crushed him, his intellect their frembled in the balance and doubtless the loss f his wife, the impair ment of his health by sleepless rigils of sorrow with her, was too much for a mind and body strained beyond human endurance through long years of terrible mental terl, and his insomnia ded in insanity This is a mournful thought, but it is more consolitory to those who love this great and good man a memory than to think of him as dying of personal disappointment and wounded self love Wounded affection and overwork night break Horace Greeley per sonal disappeintment and defeat never anten, Andrew Theodore Parker and Sam

Lowles then prematurely, as Greeley did, of in monee mental strain too long keptup without bause for recreation and refreshment. Their prenature deaths are a out warning to other men of extraordinary mental activity and ambit on for public usefulness, who never think of their bodies until their minds refuse to longer respond to incessant calls. The mainspring breaks with the tension and the ticking of their strong hearts is no longer heard in the great world of which they were among the busiest and most inspiring figures. Tom Scott, the great railway king of Pennsylvania, died in his prime of the so did James H Ruther, of the New York Central so and Stockwell, who bu it bave many of the brightest and most ener getic men in America. ### WIS CAUDLE IN PULLTICS

The women suffrage ad coates are not able to tion they are sometimes very lame in their logic A few years ago the wile of a New England college professor gravely proposed as a substi-tute for the suffrage that the women of every town should elect advisory councils and school and the stable boards in connection with the local authorities, and coue a ded her pies by say ing "After ten wears of this experience, if you will rejuced them to send their wonder representative to a consulting or advisory bouse in organic relation with your own legislature you will have given to wemen in politics all the real weight that they can resultly have, and will have solved the woman question in a way which I am confider will meet the admiration and sympathy of the materity of the women of this generation at least. If these aimsory councils should not have an more 'horse sense' than it e autho c' this proposition their "advice would not he of much practical value Such councils stang in deliberative assembly would recall Miss Betsy Trotwood gravely less ing every question tespecting the treatment of the little runaway, David Copperfield, to that smiling old im see la Mr Dick 'Mr Dick what would you do with this boy?' said Miss Trotwood to the crazy old advisory councillor "I should wash him," blandly answered Mr Dick. To a second question came the answer, I should measure him for a suit of clothes." Mr Dick's random shots hit the necessities if not the othics of the occasion. Really if these advisory councies if we men could be counted upon to deliberate as solemnia and decide as happily as this qualitation, beroft of his wits, why then Mrs. Tandle, botting her curcain lec

There is nothing so easy as to give advice, an ! nothing so hard as to give any attice worth taking and to induce any tody to take it whe her good or had aid an advisor council of women would be about as valuable and effect ve as the oil rai opinion of a conclave of metaph; sictans on the subject of agriculture or caucu-politics. Suppose President (Isreinni wanter to feel the pulse of public opinion would be as-am Bandail and Speaker Christe or the gen eral symod of the Presbyterian church, the United States fish criministon, or Isabella Beecher Hooker Unuclis of a vice of sither sex count for little if they are not competent and represent something more tangible in poli ties than advisory messages. AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicinulately claims for it a superiority over all remedies ever effected to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever or Chilisand Fever, whether of sight or ong standing. He refers to the entire Western and Southern bountry to bear min testimony to the fruth of the usertion that in no case whatever will it full to cure if the direct onaccetricity followed and carried on in a great many cases a single dose has been sufficient for a cure, and whole families here sufficient for a cure, and whole families here been sufficient for a cure, and whole families here been carried by a single bottle with a perfect restoration of the general health. It is, no over, princent and in every case more extain to cure if it is use is continued in smaller defined and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Suculd the pationt, however, requires any aid to keep the bowels in good order.
